**Subject:** About US Ecology Idaho at Grand View

Dear Stephan Ball,

Jess Byrne of Idaho DEQ suggested I contact you about the US Ecology Idaho site at Grand View, Idaho concerning radiological monitoring following the explosion there last November.

I understand that while the USEI is a RCRA disposal facility, that it also accepts radiological material from around the country and even around the world, although not being licensed by the U.S. Nuclear Regulatory Commission.

I am interested in knowing what monitoring was conducted and the data collected the day of the accident and after the accident.

Can you assist me?

My contact information is Tami Thatcher, [Ex. 6 Personal Privacy (PP)] Idaho Falls, ID 83404.
